## **Washtenaw Superintendents' Association Issues Statement of Care and Concern for Our Collective School Community**

After the tragedy at Oxford High School this week, the Washtenaw Superintendents' Association (WSA) is issuing a statement out of care and concern for our collective school community. The WSA represents the superintendents of the Washtenaw Intermediate School District and the nine public school districts in Washtenaw County: Ann Arbor Public Schools, Chelsea School District, Dexter Community Schools, Lincoln Consolidated Schools, Manchester Community Schools, Milan Area Schools, Saline Area Schools, Whitmore Lake Public Schools and Ypsilanti Community Schools. Their statement reads:

As education leaders of the nine public school districts in Washtenaw County, our hearts continue to ache for the Oxford community as they grieve at this time. Our schools are special communities that should spark inspiration and cultivate the joy of learning, and this tragic act of violence shakes our foundation, especially given its close proximity to home.

Over the last 48 hours, schools across Southeast Michigan have seen a drastic increase in the number of potential threats of violence reported to them and to law enforcement authorities. Just this morning, the WSA collectively met with the police chiefs of Washtenaw County and the Washtenaw County Sheriff's Office.

Every threat, no matter how big or small, is illegal and investigated by schools and law enforcement. Threats against the safety of our schools are never a joke, and law enforcement and school leaders will take action to protect our community, including and up to prosecution. We ask all families to speak with their students about the seriousness of making or sharing threats, and report any threats seen on social media, through text messages or other platforms to authorities through the statewide confidential reporting tool OK2SAY:

In addition to educating students, ensuring our schools are safe is our number one priority. Washtenaw County schools have close relationships with all of our law enforcement agencies and have worked together for many years behind the scenes to keep our schools safe. This includes consultation on Emergency Operations Plans and safety infrastructure and technology, partnering on grants from the Michigan State Police to secure additional safety-related resources and technology, annual county-wide coordination meetings, and regular safety planning for individual school districts. The Washtenaw Intermediate School District and the Washtenaw County Sheriff's Office provides ALICE training for all school employees in our county throughout every school year, and while we hope this training never needs to be used, it is a protocol we must always be prepared for.

We also understand that reactions to this tragedy look and feel different for every student and adult, and you may notice changes in the behaviors of those around you as we collectively grieve, reflect and react. Help and support is available to you and your family:
