Dear Jenkins Parents:

In the event Dexter Community Schools are closed because of inclement weather, the half-day classes (Alpine, Broad, & Grand) are closed for the day. Dexter Schools posts school closing information on the district website, through several area radio and television stations, and parents of K-12 students will receive an automated call informing them of the closing. However, we make every attempt to keep the full-day classes open. If the decision is made to close full-day classes as well, parents will be notified via email of the complete closure of Jenkins ECLC.

In the event of an emergency school closing (loss of power, water, etc.) the same policy and notification procedures apply. Half-day classes follow the announcement of Dexter Community Schools being closed and full-day classes will be notified via email.

We will review and evaluate our notification policies in the event of school closure. If policy and procedures are modified, we will communicate those plans to you as soon as possible. If you have questions or concerns, please contact me.

Sincerely,

David Teddy  
Director, Dexter Community Education
