

## SUMMARY: Dexter Community Schools Planning for Fall Community Forum 6-9-2020

### Our Plans

- We await guidance from Governor's Office and/or Michigan Department of Education in late June
- DCS will build a detailed plan based on the guidance in late July and solicit community feedback (see next page for planning flowchart).
- The DCS finalized plan will be released in early August with a September 8th start date.

### Health & Safety Guidance

We have received many questions regarding which specific health and safety precautions we will be implementing and incorporating into our plans. Best practice guidance is evolving rapidly. We are required to follow the direction of the Washtenaw County Health department; they follow guidance from the Centers for Disease Control. Here is a link to the CDC site if you would like to follow developments yourself.
