August 1, 2017

Dear DCS Parents and Community,

We're now approximately one month away from the start of a new school year and only a week away from the August 8th Bond Election. Please remember to vote on August 8th.

One of the frequent questions we've been asked is how the proposal impacts the current millage rate. Here is a quick description of the impact.

Impact on Millage Rate			
1998	2008	Current	If Bond Passes
8.5 mills	8.5 mills	8.5 mills	8.5 mills

The bond proposal is structured not to increase the 8.5 mills annual debt levy that the District currently collects for previous building projects, but to extend the number of years that the levy will be collected. Projections indicate that the current debt levy would start to decline in 2024. If voters approve the proposed bond, the debt levy is not projected to decline until 2030.

Attached to this letter is a brochure with more information regarding the proposal. Please take a few minutes to review the brochure or visit www.dexter2017.com or www.dexterschools.org to find a detailed website created to share information regarding the August 8th Bond Proposal.

Thank you for your commitment to Our Kids, Our Community, and Our Future!

Sincerely,

Christopher Timmis, Ed.D.
Superintendent
